

# Table of Contents

|  |          |   |           |
|--|----------|---|-----------|
| <b>LESSON 1 EXPLORING EXCEL 2007</b>     | <b>2</b> | <b>LESSON 2 EDITING, VIEWING,<br/>AND PRINTING WORKSHEETS</b> | <b>20</b> |
| Presenting Excel 2007                    | 3        | Opening Workbooks   | 21        |
| Starting Excel                           | 3        | Editing Entries   | 21        |
| Exploring the Excel Program Window       | 4        | Replacing Entries   | 21        |
| Using Worksheets and Workbooks           | 5        | Deleting Characters   | 22        |
| Mousing Around in Excel                  | 5        | Selecting Cells and Ranges                                    | 23        |
| Scrolling Along in a Worksheet           | 6        | Excel Ranges  | 23        |
| Navigating in a Worksheet                | 6        | Working with Cut, Copy, and Paste                             | 25        |
| Working with Tabs and Ribbons            | 8        | The Office Clipboard  | 26        |
| The Office Button                        | 8        | Moving Cells via Drag and Drop                                | 26        |
| The Quick Access Toolbar                 | 8        | Editing Cells via Right-Dragging                              | 26        |
| Displaying Tabs and Working with Ribbons | 9        | Using Undo and Redo   | 28        |
| Hiding the Ribbon                        | 10       | Undoing Multiple Actions                                      | 28        |
| Entering Data in Excel                   | 11       | Clearing Cell Contents and Formats                            | 29        |
| Data Types                               | 11       | Using Auto Features   | 30        |
| Completing Cell Entries                  | 11       | Working with AutoFill   | 30        |
| The Enter and Cancel Buttons             | 12       | AutoFill Options  | 31        |
| Deleting and Replacing Entries           | 12       | AutoComplete vs. AutoFill                                     | 31        |
| Long Text Entries                        | 12       | Exploring the Many Views of Excel                             | 33        |
| Working with Numbers                     | 13       | Working in Page Layout View                                   | 33        |
| Number Formats                           | 13       | Zooming the View  | 33        |
| Decimals and Negative Numbers            | 13       | Printing Worksheets   | 34        |
| Understanding Save Concepts              | 15       | Print Preview   | 34        |
| Storing Your Exercise Files              | 15       | Print the Worksheet   | 35        |
| The Save Command                         | 15       | Printing Selections   | 35        |
| Save As Options                          | 15       | Concepts Review   | 37        |
| Locating Workbooks                       | 16       |   |           |
| Issuing Commands from the Keyboard       | 16       |   |           |
| Closing Workbooks                        | 17       |   |           |
| Exiting from Excel                       | 18       |   |           |
| Concepts Review                          | 19       |   |           |

### **LESSON 3 WORKING WITH FORMULAS AND FUNCTIONS** **38**

---

|  |    |
|--|----|
| Working with Formulas and Functions    | 39 |
| Using AutoSum                          | 39 |
| Status Bar Functions and Customization | 40 |
| Creating Formulas                      | 42 |
| Beginning Character in Formulas        | 42 |
| Cell and Range References              | 42 |
| The Language of Excel Formulas         | 42 |
| Please Excuse My Dear Aunt Sally       | 43 |
| Using Cell References in Formulas      | 44 |
| Relative Cell References               | 44 |
| Point Mode                             | 44 |
| Absolute Cell References               | 44 |
| Mixed References                       | 45 |
| Using the [F4] Function Key            | 45 |
| What-If Analysis                       | 45 |
| Modifying and Copying Formulas         | 47 |
| Modifying Formulas                     | 47 |
| Copying Formulas                       | 47 |
| Displaying Formulas                    | 49 |
| Using Formula AutoComplete             | 50 |
| Functions Defined                      | 50 |
| Using the Function Wizard              | 51 |
| Concepts Review                        | 54 |

### **LESSON 4 FORMATTING THE CONTENTS OF CELLS** **56**

---

|   |    |
|---|----|
| Formatting Worksheets                       | 57 |
| Formatting Entries with the Ribbon          | 57 |
| Using the Mini Toolbar                      | 57 |
| Live Preview                                | 57 |
| Using Excel's Alignment and Indent Features | 59 |
| Aligning Entries                            | 59 |
| Indenting Cell Entries                      | 59 |
| Using Excel's Text Control Options          | 60 |
| Merging and Splitting Cells                 | 60 |
| Wrapping Text                               | 61 |
| Shrinking Text to Fit Within a Cell         | 62 |
| Formatting Numbers                          | 63 |
| Using the Number Command Group              | 63 |
| Using Accounting and Currency Styles        | 63 |
| Applying the Percent Style                  | 64 |
| Displaying Negative Numbers                 | 64 |

|   |    |
|---|----|
| Using the Format Cells Dialog Box       | 66 |
| Borders and Fill Color                  | 66 |
| Applying Fill Colors and Patterns       | 67 |
| Using the Format Painter Tool           | 68 |
| Formatting with Themes                  | 69 |
| Inserting Date Functions and Formatting | 70 |
| Working with Dates                      | 70 |
| Date Serial Numbers                     | 70 |
| Entering Dates                          | 70 |
| Inserting Date and Time Functions       | 71 |
| Concepts Review                         | 73 |

### **LESSON 5 CHANGING THE APPEARANCE OF WORKSHEETS** **74**

---

|   |    |
|---|----|
| Modifying Columns and Rows                      | 75 |
| Column Widths and Row Heights                   | 75 |
| Standard Column Widths and Row Heights          | 75 |
| AutoFit   | 75 |
| Inserting and Deleting Columns, Rows, and Cells | 77 |
| Inserting and Deleting Rows and Columns         | 77 |
| Inserting and Deleting Cells                    | 77 |
| Hiding Columns and Rows                         | 79 |
| Unhiding Columns and Rows                       | 79 |
| Changing Vertical Alignment and Rotating Text   | 81 |
| Setting Vertical Alignment                      | 81 |
| Rotating Text                                   | 81 |
| Using Excel's Find and Replace Command          | 83 |
| Replacing Cell Formats                          | 83 |
| Using AutoCorrect                               | 86 |
| Expanding AutoCorrect Entries                   | 86 |
| Undoing AutoCorrect Entries                     | 86 |
| Creating and Editing AutoCorrect Entries        | 87 |
| Using Excel's Help Feature                      | 88 |
| The Help Box                                    | 88 |
| Finding Help When You Need It                   | 89 |
| The Help Window Toolbar                         | 89 |
| Using Excel's Proofing Tools                    | 91 |
| Spelling Checker                                | 91 |
| Research References                             | 91 |
| Thesaurus                                       | 92 |
| Translation                                     | 92 |
| Concepts Review                                 | 94 |
| <i>Index</i>                                    | 96 |
