GENERAL EDUCATION DIPLOMA

ONLINE ONLY COURSE - prepares adults to pass all four subjects of the online GED® exam. Students will assess their ability to pass the GED® exams by taking GED® Ready exams. Students are encouraged to take their strongest subject area exams and concentrate on areas of weakness. BOOKS AVAILABLE IF NEEDED!

Details

- Program is designed for adults 18 and older who are no longer in school. If you are 16 or 17, you must provide a high school attendance disclaimer form from the public high school in the school district where you currently live. Contact your high school or your school district administrative offices.
- During the semester there will be guest speakers attending from registrar, student services, and financial aid to give vital information regarding enrollment to North Central Texas College including resources available to help financially.
- Please contact ACE for registration at kbell@nctc.edu or 940-668-3373.
- Once registered instructor will contact student with log in information.

- No live real-time requirements or meetings.
- For best learning, should log into the course on 2-3 different days of the week.
- Follow links for online registration.

**INTRODUCTION TO FICTION WRITING**  
**TUITION: $95**  

Designed specifically for those with little to no fiction writing experience, find your pathway towards your fiction writing goals. Learn the basic building blocks of story: character, plot and setting. Then find out the different forms of fiction writing and some of the genres you might like to explore.

Whether you’ve never written a word of fiction, or haven’t written since high school or college, you will complete the course with the skills you need to get started. Create a new work of fiction, or revive an old one that’s been sitting in your bottom drawer.

**THE TEEN BRAIN**  
**TUITION: $95**  
[www.yougotclass.org/course/index.cfm/nctc/the-teen-brain](http://www.yougotclass.org/course/index.cfm/nctc/the-teen-brain)

One of the most turbulent periods in brain development occurs during adolescence. The teen brain actually functions very differently from the adult brain. Certain kinds of thinking, such as decision-making, actually happen in different parts of the brain for adolescents and adults.

Understanding these complex changes can help calm the rough seas of the teen years, but also provide your teen with critical support and understanding that will promote better decision-making, better mental health, and better outcomes at school.

Come find out the important ways in which the teen brain is developing. Identify behaviors and attitudes that are influenced by these changes. Then learn to offer constructive strategies for establishing a better understanding of and communication with your amazing teen.

ADVANCED MANUFACTURING TECHNICIAN

Tuition: $149

https://www.journeyed.com/item/180+Skills/180+Skills/1868407

Advanced manufacturing technicians perform many important tasks such as product assembly, machine operation, and quality assurance. Advanced manufacturing technicians play a key role in the manufacture of many commercial products. Employment of advanced manufacturing technicians is projected to grow 4 percent from 2012 to 2022.

MECHATRONICS AND INDUSTRIAL TECHNICIAN

Tuition: $149

https://www.journeyed.com/item/180+Skills/180+Skills/1868409

Mechatronics is the convergence of mechanical, electronic, control, and software engineering. Also known as electro-mechanical maintenance technicians, mechatronics and industrial automation technicians combine knowledge of mechanical technology with knowledge of electrical circuits. They install, troubleshoot, repair, and upgrade electronic and computer-controlled mechanical systems, such as robotic assembly machines. Mechatronics and industrial automation technicians work closely with electrical and mechanical engineers. They work primarily in manufacturing, engineering services, and research and development.

CNC LATHE TECHNICIAN

Tuition: $149

https://www.journeyed.com/item/180+Skills/180+Skills/1868408

Computer numerical control (CNC) lathe production technicians transform raw materials into finished products used in commercial, automotive, medical, and aerospace products. CNC lathe production technicians produce parts that range from simple bolts of steel to titanium bone screws for orthopedic implants. CNC lathe production technicians work from blueprints, or computer-aided design (CAD), and computer-aided manufacturing (CAM) files. They set up and operate CNC machine tools, monitor the feed rate and speed of machines, and measure, examine, and test completed products for defects.
TECHNICAL COMPETENCIES

Technical competencies are aligned with industry-defined standards for the mastery required to perform technical job functions.

ELECTRICAL TECHNICIAN

TUITION: $149

https://www.journeyed.com/item/180+Skills/180+Skills/1868334

Electrical Skills is comprised of a two-pathway sequence designed to give you hands-on experience with the various facets of the skills required in the electrical trades. Together, the pathways are comprised of 58 courses and are expected to take 59 hours to complete. The program provides online access to all resources for one year.

Electrical Skills Part 1 is comprised of 42 courses, expected to take 41.5 hours to complete. Electrical Skills Part 2 is comprised of 16 courses, expected to take 17.3 hours to complete.

Courses are animated and audio-based and designed as bite-sized "micro-learning" modules that are a few minutes long each. This means you can proceed at your pace, pick up where you left off, go back to areas where you need more time and accelerate through topics you already have a firm grasp on.

PROFESSIONAL TRUCK DRIVER I/II

TUITION: $5,000

In just four weeks, you can be on your way to a new career with the professional truck driving training program. Get hands-on skill development and instruction coordinated with the U.S. Department of Transportation in this program.

Details

- Have a high school diploma or a GED certificate
- Be at least 21 years of age.
- Have an acceptable driving record.
- Complete and pass a Department of Transportation Physical Exam.
- Have the ability to read, write and speak English.
- Meet the requirements of the Motor Carrier Federal Safety Regulations, Qualifications of Drivers
- Classes are offered monthly
- Tuition includes physical, licensing, and books.
- Contact ACE for registration at kbell@nctc.edu or 940-668-3373

For more information contact Scott LeDane at NCTC Adult and Continuing Education 940-668-7731 EXT 4911 or gledane@nctc.edu
