

# Associate Degree Nursing

## Nursing Information Sessions for 2018

Due to the number of prospective students who are interested in the Associate Degree Nursing Program, we do not offer individual advisement sessions. It takes approximately an hour to go over the entire program so we offer several group sessions throughout the year. By attending an information session, you will have an opportunity to learn about the program and ask any questions that may not have been answered in the session. Advisers do not look at individual transcripts.

Information Sessions are offered on the **Gainesville** campus in the Leo & Mabel Scott Health Science Center (2400 bldg.) on the following dates and times:

**Monday, September 10 at 5:00 pm in room 2410**

**Monday, September 24 at 2:00 pm in room 2424**

**Monday, October 8 at 5:00 pm in room 2410**

**Monday, October 22 at 2:00 pm in room 2424**

**Monday, November 5 at 5:00 pm in room 2410**

**Monday, November 19 at 2:00 pm in room 2424**

**Monday, December 3 at 5:00 pm in room 2410**

No appointment is necessary. Please arrive a few minutes early so that you can locate the room before the session begins.
