Online LVN Admission Steps

Annual Admission Period:

Spring Online Program: classes begin every January at the Gainesville campus only
May 1-June 30

The online LVN course is a hybrid course. Coursework is done online during the week with clinicals completed every Saturday and Sunday at the Gainesville campus or your assigned clinical facility.

Step 1:
You must attend an information session. The schedule can be found here http://www.nctc.edu/_documents/licensed-vocational-nursing-lvn/vocational-nursing-information-session-dates.pdf. You do not have to make an appointment to attend, however be sure to arrive before the scheduled time as the doors are locked at start time. You will receive an application and informational packet at the session. You will also be given information on how to register for the TEAS entrance exam. Spouses and parents are welcome to attend the information session, however due to the nature of the meeting it is not appropriate for children to be in attendance. You must select one campus to apply to and attend the information session on that campus.

Step 2: Schedule the Teas exam at https://atitesting.com/Home.aspx. The LVN program uses TEAS scores only as the basis for admission with each campus accepting the top scores for their next class. To be considered for the program an individual must make at least 50% in each section of the exam. It consists of grammar, reading comprehension, science, and mathematics. The cost of the test is $85.00. You may take the test twice per admission at your own expense. You can find a TEAS study guide online at atitesting.com or at your favorite online retailer. Students who are seeking testing accommodations for the TEAS entrance exam can contact Yvonne Sandmann (940) 668-3300. TEAS testing deadline for spring admission is August 15.

Step 3:
After all test scores are received and analyzed, students will be notified of acceptance, placement on the waiting list, or if their score was too low to meet admission requirements by email. Students whose scores were too low are encouraged to reapply to the program at the next available admission. Please do not call the LVN office for test scores. It is against the law to reveal that information over the phone or email. You will be able to access your test scores through the account you will set up when you are registering to test.

If you have any questions, please contact the department assistant, Kara Mason by email (kmason@nctc.edu) or (940) 668-4291.
